Global Trade Fund & RS INWESTBERG GROUP

Ecological Resort on Lefkada

London, 02.12.2020, 00:29 Time

USPA NEWS -

The new development company is starting to implement new luxury projects in Greece on the island of Lefkada. Global Trade Fund I.K.E and in cooperation with real estate company
RS INWESTBERG GROUP

Global Trade Fund is a development company that focused on the construction of an ecological resort - Hotel on the island of Lefkada. Nowadays, when the ecological solution comes first, this intention is highly appreciated. Another exceptional step of this company is the reason why they decided to build an ecological hotel in the Caribbean style.

The reason is to offer ordinary people who do not have enough funds, the opportunity to experience a beautiful environment like in the Caribbean. An even greater experience will be that these visitors will spend their holidays in an ecological hotel.

Lefkada is an ideal place for this project, with the most beautiful beaches in the world. The first project of a larger type is the construction of this hotel complex. One of the reasons for the implementation of this project was the analysis.

One of the ways to successfully implement such a project is, of course, an individual approach to clients. The next step so that we could start implementing this project was to choose a suitable partner. We managed to connect with the company RS INWESTBERG GROUP, this company is at a high professional level with many years of experience in real estate and finding investors. I would say it is aimed at the American level of The Oppenheim Group
According to Robert Stepank from the real estate agency RS INWESTBERG GROUP, which provides us with project investors, architects and investors aim to satisfy the needs of our future clients in a beautiful location and at a reasonable price.

The main task of our company is to develop and maintain an economically healthy and prosperous business. We accept responsibility wherever we can manage our activities effectively. We are responsible to the environment in which we operate, to our employees and business partners.

Our company is an established and modernly managed construction company. During its existence, we are one of the companies with a good reputation, and it is a guarantee of quality for investors, compliance with the agreed deadlines for implementation and the provision of long-term guarantees.

Our experience and background make it possible to coordinate all procedures with all follow-up activities with the aim of handing over the work as a user-friendly complex. We would like to start the implementation of our ecological tropical resort project in Lefkada as soon as possible, and if we manage to conclude a contract with an investor through a cooperating company, we can start building immediately. For the investor, we have a very pleasant evaluation of the investment and a high prestige, because we will be the first in Lefkada to build an ecological resort there.

Our company also offers the construction of a villa in Lefkada, in very prestigious places with an area of 300sqm and more. We offer everything at least 4,500sqm of land in several cases, including the beach.
